

## **Description of the Tele-Scar Actors**

### ***Patient:***

A patient is a person with diabetic foot complications who is registered at the Tele-Scar platform and seeks medical monitorization and counseling.

### ***Health Care Professional:***

A health care professional is a qualified person who has authorization to access the patients' list, establish a wound care management plan, and give feedback.

### ***Bank:***

The Bank is a financial institution responsible for verifying the patients' credit card information and bank account balance and authorize payments.
